2013 WINTER HAIR COLOUR TRENDS

As summer comes to a close sometimes we're left feeling a little put off at the prospect of woolly-jumper-season. But let's not forget that with winter comes the exciting opportunity to refresh and re-energize our hairstyle. Need hair inspiration to lift your post-summer spirit? What better way than with the hottest hair colour trends of the moment?

Pastel hair

Fancy going all out? Follow in the footsteps of Kelly Osbourne and Helen Mirren and opt for a pastel shade. Once reserved for Grandmas, soft pink and purple rinses alongside iridescent blue-green hair are likely to show up on the street, adding colour to even the dullest of winter days.

Dry hair can be a burden especially in the winter time. Many find dry hair dull and unmanageable. There are many ways to restore the shine and life into your hair.

That's why we recommended using Soy Tri- Wheat Treatment accompanied by Soy Tri-Wheat Leave in Conditioner combining these two products will give you that extra boost in moisture, strength and shine your hair will need this winter it will also protect and prevent any further damage the harsh dry weather may cause.

So for a limited time we are offering

"Double Your Moisture" Twin pack
for \$27.95

Hot Stone Massage perfect Winter Treat

An ancient massage technique utilising the benefits of thermotherapy. Hot stones are gently placed on energy or 'chakra' points during the treatment and are used on the body during the massage to provide deep muscular stress relief.

Heated stone treatment goes beyond the physical and allows you to enter a deeper sense of relaxation, health and wellbeing. The penetrating heat from the stones relaxes muscles, allowing trigger points to dissolve and fade with minimum effort. Some of the benefits include relief of chronic pain, relaxation and stress reduction, detoxification of the body, and relief of neck and back pain.

Each rock is heated and placed on key points of your body. The energy from the heated rock penetrates your skin for a unique soothing, healing experience. This treatment is perfect for those feeling stressed or out of sync.
